ASK THE EXPERT
"THE trailing bouquet is back. 2015 will see more brides opting for this design. If this is your choice, ask your wedding florist to create a wired, delicate trailing design. A little more expensive, (as it takes longer to create than a hand-tied design) but light in appearance and a bridal design that's really unique, stands out and will make you feel special."
Sally Johnson, Serendipity Floral Designs, Leeds

Best of the bunch
